## Chronic Dyspepsia Cured.

After suffering for nearly thirty years from dyspepsia, Mrs. H. E. Dugdale, wife of a prominent business man of New York, writes: "For 23 years, I was constant sufferer from dyspepsia and a weak stomach. The lightest food produced distress, causing severe pain and the formation of gas. No matter how careful of my diet I suffered agonizing pain after eating, as treated by many physicians and tried numerous remedies without permanent help. About 10 years ago I began taking Dr. Miles' Food and Liver Pills and Nervine. Within a week I commenced improving, and in the treatment I was soon able to eat what I liked, with no evil effects. I am now as healthy and single as I was 23 years ago." Dr. Miles' Food and Liver Pills are sold by all druggists under a positive guarantee, first bottle free or money refunded. Book on the cure of the heart and liver free. Address: DR. MILES MEDICAL CO., Elkhart, Ind.

## HAS LEFT KEY WEST

Maine Court of Inquiry's Report on Its Way to Washington.

### PRESIDENT'S LINE OF ACTION

Document Will Be Made Public When Sent to Congress—Senator Thurston Will Speak on Cuba—Speaker Reed and Mr. Hitt Confer With President McKinley.

Washington, March 22.—The report of the naval court which has been investigating the cause of the destruction of the battleship Maine in Havana harbor on the night of Feb. 15 was turned over to Admiral Sigsbee last night and was dispatched from Key West early this morning. It should arrive here Thursday morning. It is thought that the president will not require more than two days for its consideration and the preparation of a message, which would bring us to Saturday.

### LINE OF ACTION.

To Be Pursued When the Court of Inquiry's Report Is Received.

Washington, March 22.—The procedure in connection with the submission of the report of the Maine court of inquiry by the president to congress is now clearly outlined, and a cabinet officer explains the general line of action at present intended to be pursued upon receipt of the report, which is expected to reach Washington next Thursday. A copy of it will be laid before the Spanish government very early, and as soon as can be consistently done the report will be sent to congress and made public at the same time.

The report to congress will be accompanied by a message from the president, stating that after receiving the report the conclusions were laid before the Spanish government and appropriate action from that quarter asked. It is stated positively that no part of the report, and no intimation of the findings, has reached the executive authorities in Washington as yet. At the same time it is a noticeable fact that the current of official opinion is beginning to follow that of the unofficial opinion expressed so positively and persistently at Havana and Key West, that the cause of the explosion was external to the battleship. Officials high in the administration have stated that while they were wholly without exact information as to the findings of the court of inquiry, they found themselves sharing in the apparently intangible conviction that the cause of the explosion was not accidental.

### Reed and Hitt Call on the President.

Intense interest in the coming report was manifested at the white house yesterday and at the state, war and navy departments. The president received a number of congressional leaders, among them being Speaker Reed and Chairman Hitt of the house committee on foreign affairs. The visit of Mr. Reed naturally attracted much attention. It was inferred the purpose of his visit was to confer upon the Cuban situation and its future before congress, though neither he nor Mr. Hitt was communicative. Secretary Long also had an extended conference with the president.

The army and navy preparations continue without interruption. No further purchases of warships have been concluded, and the negotiations are not assuming a promising aspect, except in showing that the United States can command the market as against Spain.

The ordnance office of the war department presented a very busy scene when bids were opened for furnishing 1,600 cast iron projectiles for sea coast cannon with which to man the fortifications. The advertisement called for 187 10-inch solid shot, 910 12-inch mortar shells weighing 800 pounds each and 500 12-inch mortar shells weighing

1,000 pounds each. There were an unusually large number of firms who bid for the contract and the prices at which they proposed to furnish the projectiles showed a wide range.

The Battleship Texas started Northward from Key West today, thus settling the question as to the formation of a second squadron at, or near Hampton roads. It is expected the Massachusetts will follow in a few days but the final orders for that move have not been made.

### TORTUGAS HARBOR.

Important Conference in Regard to Its Fortification.

Washington, March 22.—An important conference was held in the office of the secretary of war in regard to the fortification of Tortugas harbor. There were present Secretary Alger, Assistant Secretary Roosevelt of the navy department, General Miles, General Wilson,

and other military and naval officers. The subject of the conference was the proposed fortification of Tortugas harbor, which is a strategic point in the Gulf of Mexico.

The conference was held in the morning and lasted until noon. It was attended by a number of the most prominent military and naval officers in the country.

The result of the conference was that it was decided to proceed with the fortification of Tortugas harbor as soon as possible.

The fortification of Tortugas harbor is considered one of the most important military projects of the present administration.

The project has been under consideration for some time, but it was not until recently that a decision was reached to proceed with it.

The fortification of Tortugas harbor is expected to be completed within a few years.

House Committee Reports Favorably on the Overstreet Bill.

### NOT MEDDLING IN HAWAII

Herman Keok, an Alleged Smuggler at Cincinnati, Gets a Rehearing in the Supreme Court—House and Senate Proceedings—Blanche K. Bruce's Funeral—Pensions.

Washington, March 22.—The house committee on invalid pensions have favorably reported the Overstreet bill prohibiting the withholding, suspension, modification or cancellation of any pension except for fraud, clerical error, mistake of fact or recovery from disability.

The bill requires sworn charges in each case, the reduction of all evidence to written questions and answers and prevents adverse action until the determination of such an investigation to be held near the claimant's home, at which the claimant and attorney are to appear.

### ENGLAND PROTESTS.

No Grounds for the Statement Connecting Her With Hawaii.

Washington, March 22.—Much surprise has been created in England by the passage in the recent report of the Senate committee on foreign relations respecting the attitude of Great Britain toward Hawaii and Sir Julian Pauncefote, under instructions from his government, has informed the department of state that the committee of the senate are under an entire misapprehension, and that there is no ground whatever for the allegations contained in the statement.

The passage referred to states that "If Great Britain is not industriously and openly engaged in fomenting this concerted movement for the destruction of the monarchy on its ruins, her agents and the princess, her protegee, are kept conveniently near at hand to fasten her powers upon the islands, on the happening of any pretext for the protection of the lives and property of British subjects in Hawaii."

### CUBAN INDEPENDENCE.

Resolution Recognizing the Same Introduced in the House.

Washington, March 22.—Representative King of Utah has introduced the following joint resolution, recognizing the independence of Cuba: Resolved, By the senate and house of representatives, that the republic of Cuba having established and maintained an independent government capable of performing those duties, foreign and domestic, which appertain to independent governments, and it appearing that there is no longer any reasonable prospect of the successful prosecution of the war by Spain against said state, it is expedient and proper, and in conformity with the laws of nations and the practice of this government in like cases, that the independent political existence of said state be acknowledged by the government of the United States.

### ALLEGED SMUGGLER.

Herman Keok of Cincinnati to Get a Rehearing Before Supreme Court.

Washington, March 22.—The United States Supreme Court has restored to the docket the case of Herman Keok, the Cincinnati merchant who is under sentence of imprisonment for attempting to smuggle diamonds into the United States through the Philadelphia port. The court recently affirmed the decision of the court below by a divided court before Justice McKenna went on the bench. The case will now be considered by the full bench on printed briefs.

### Senate and House.

Washington, March 22.—The senate was in session yesterday an hour and five minutes. After disposing of some routine business Mr. Bacon introduced an amendment to the resolution for the annexation of Hawaii. The amendment provides that the resolution shall only become effective when it shall have been submitted to the qualified voters of Hawaii and passed upon favorably by them. The house unanimously passed the bill for the relief of the survivors of the Maine disaster. The bill reimburses the survivors for losses sustained and pays the heirs of the victims a sum equal to a year's pay.

## PINGREE'S TAX BILL.

Measure Ready for the Legislature, Which Convened Today.

Lansing, Mich., March 22.—It is evident that Senator McMillan's reply to Governor Pingree's letter on the subject of taxation of corporations will be the keynote of the opposition to the Pingree taxation bill in the special session of the legislature which convened today. Appointment of a commission, which shall report investigation of the subject at the regular session of the legislature next winter will be urged as a compromise measure. The Pingree bill is completed. It provides for appointment by the governor of a state board of five assessors, the auditor general to be president thereof, who shall assess all railroad, telegraph, express and telephone companies taxes, the assessments to be at the average rate of taxes on other properties for the previous year. The corporations named are required to file sworn statements of all their property, real and personal, and gross receipts from all sources and other facts as the board may require. The companies franchises are also to be assessed at their true cash values.

### WORKING LIKE A CHARM.

American Customs Regulations at Skagway and Dyea.

Vancouver, B. C., March 22.—P. Carter, who has just returned to Vancouver from the north, says that the American customs regulations at Skagway and Dyea are working like a charm. Collector Ivey has returned to Alaska from Washington and is carrying out the treasury instructions of Feb. 22. Mr. Carter says that the Skagway trail is breaking up owing to the early season and mild weather. The Dyea trail is no better. Klondikers are stuck at Sheep Camp. The electric tramway is not yet working. He thinks the Stikkeen river route will be the best when the river opens, which he expects will be about April 25. He advises Klondikers to stay in the cities of Seattle and Vancouver, to be on the spot when the river boats are able to proceed. Wrangal at present has a population of 5,000.

Goshen, Ind., March 22.—The trial of County Commissioners Walley and Kinison, for receiving bribes, came to an abrupt end. Ex-Treasurer William E. Holdeman, who is now confined in jail awaiting sentence for embezzlement, and Attorney E. A. Dausman refused to testify, the latter on the ground that the facts in his possession were given to him while acting as an attorney and were privileged.

Judge Wilson sent Holdeman to jail for contempt, but at the request of the prosecution Attorney Dausman was allowed to go free. As the prosecution was based on evidence of Holdeman and Dausman the jury returned a verdict of acquittal.

### OMAHA EXPOSITION.

Governor Mount Expresses a Desire to See Indiana Well Represented.

Indianapolis, March 22.—Governor Mount expresses a desire that Indiana be fittingly represented at the Omaha exposition this year. While no money is available for making a state exhibit, he believes it is possible for commercial bodies, companies and individuals to take hold of the subject and arrange for a creditable display from the state. His information is that every transmississippi state will make an exhibit, and that many of the states this side of the river will be well represented. It is of special importance, he thinks, that the industries in this state should be represented.

## Her Identification.

"There," she said as she finally got the check properly indorsed and handed it to the paying teller, "I'd like to have the money, please."

The young man scanned it carefully and then looked at her.

"Is there anything wrong with it?" she inquired apprehensively.

"No, I'm sure it's all right. Only we have our rules here, and before we can let you have the money you will have to be identified."

"But the friends I am visiting took a trip out into the country with my mother this morning."

"Then you will have to wait till tomorrow."

"But I need the money to do some shopping with this afternoon."

"I'm very sorry."

"It's absolutely necessary to be identified," she asked plaintively.

"Absolutely."

"Well, I suppose I can manage it. Will the bank be open for an hour?"

"Yes."

"Then I'll hurry home and put on my evening gown. It's a great deal of trouble, but it's the only way, and I'm glad I happened to think of it."

"I don't quite understand."

## DUPLICATION ALONG THE LINE.

Success that we have met with by the price of our cabinet photos is one dollar per dozen, has caused us to continue for thirty or forty days longer, making cabinets on paper equal in style, finish and quality to those made by other photographers at a much higher price.

We have also determined to make the same or dead finish cabinet photos (some called carbonettes) at \$2.00 per dozen and guaranteed them equal to any made in Seymour at \$1.00 per dozen.

It is deceived by the cry of cheap and work, for we all use the kind of printout paper, and in the same kind of gold and platinum baths. Wash our prints in the same kind of water and card and wash them in the same way. We call attention to our new velvet cabinets at \$1.50 per dozen that by are preferred to the higher priced ones. We invite you to call and see our work and then if you do not pay higher prices for no better it is your privilege to do so.

## GOOD CITIZENS' MEETING.

Steps Toward Organization Taken Here Last Night.

There was a public meeting at the Presbyterian church last night to take steps towards the organization of a good citizens' league. There were about fifty men present and several women. As presarranged Rev. J. T. Charlton presided and Frank H. Hadley acted as secretary. The constitution, which is the same as adopted by similar leagues throughout the state, was read by the chairman.

The needs of such an organization were presented by Rev. J. W. Cleverger, and the benefits to be derived from it were pointed out by Rev. J. M. Barker. Both gentlemen spoke conservatively and urged the necessity of the people generally upholding the officials in the enforcement of law and showing a more decided interest in municipal affairs than they usually do. John L. Kessler followed with some general remarks showing the utility to be derived from a well organized and conservatively managed league.

After a second reading of the constitution, twenty-six came forward and signed the same which insures the organization of a local league.

A committee, consisting of John L. Kessler, Frank H. Hadley and Senator Louis Schneck was appointed to report permanent officers at the meeting at the Methodist church next Monday evening.

Similar leagues have been organized in several cities in the state and where they have been conservatively managed on the lines indicated by the chairman and other speakers last night, have been the means of doing much good in the enforcement of law.

## DUPLICATION ALONG THE LINE.

Success that we have met with by the price of our cabinet photos is one dollar per dozen, has caused us to continue for thirty or forty days longer, making cabinets on paper equal in style, finish and quality to those made by other photographers at a much higher price.

We have also determined to make the same or dead finish cabinet photos (some called carbonettes) at \$2.00 per dozen and guaranteed them equal to any made in Seymour at \$1.00 per dozen.

It is deceived by the cry of cheap and work, for we all use the kind of printing paper, and the same kind of gold and platinum bath. Wash our prints in the same kind of water and card and wash them in the same way. We call attention to our new velvet cabinets at \$1.50 per dozen that by are preferred to the higher priced ones. We invite you to call and see our work and then if you do not pay higher prices for no better it is your privilege to do so.

## GOOD CITIZENS' MEETING.

Steps Toward Organization Taken Here Last Night.

There was a public meeting at the Presbyterian church last night to take steps towards the organization of a good citizens' league. There were about fifty men present and several women. As prearranged Rev. J. T. Charlton presided and Frank H. Hadley acted as secretary. The constitution, which is the same as adopted by similar leagues throughout the state, was read by the chairman.

The needs of such an organization were presented by Rev. J. W. Cleverger, and the benefits to be derived from it were pointed out by Rev. J. M. B. B. Both gentlemen spoke conservatively and urged the necessity of the people generally upholding the officials in the enforcement of law and showing a more decided interest in municipal affairs than they usually do. John L. Kessler followed with some general remarks showing the utility to be derived from a well organized and conservatively managed league.

After a second reading of the constitution, twenty-six came forward and signed the same which insures the organization of a local league.

A committee, consisting of John L. Kessler, Frank H. Hadley and Senator Louis Schneek was appointed to report permanent officers at the meeting at the Methodist church next Monday evening.

Similar leagues have been organized in several cities in the state and where they have been conservatively managed on the lines indicated by the chairman and other speakers last night, have been the means of doing much good in the enforcement of law.

## AVOID DECEPTION.

Ask for the Popular and Reliable Diamond Dyes.

Do not be led away by the false claims of imitators. No other dyes in the world can equal the Diamond Dyes. They are fully warranted to color more goods, package for package, and give more brilliant and durable colors than can be gotten by other dyes.

The claims of makers of adulterated dyes and of colors that are made up of a very small amount of poor dye can only lead to disappointment and the utter ruin of valuable and serviceable materials. Many women, for the sake of curiosity, have tried some of the imitation makes of dyes, and are now quite satisfied that Diamond Dyes alone are worthy of admittance to the home as true agents of economy. We say again, do not be deceived by the statements of any dealer Ask for Diamond Dyes and take no other make. Diamond Dyes delight and the users and make the family happy.

## OUTINGS IN CALIFORNIA.

The Grandest Country Under the Sun for Outdoor Pastimes.

When one desires an "outing" for health for the enjoyment of the beauty and grandeur of scenery, or for sporting, he can more than satisfy himself in California. During more than eight months of the year open air life is entirely agreeable, and except for conclusion even a tent is unnecessary. No sports there are "postponed on account of the weather," and Mother Nature holds out a welcoming hand to any one who will commune with her.

It is not strange then that "all California takes an outing." The residents of the valleys seek the coast for its ocean breezes and for bathing, boating and fishing that they may enjoy, or they go to the high Sierras for the cool, invigorating mountain air.

The sportsman can also have his fill. He is a disciple of Izak Walton he will find stream and lake and sea yielding him an ample reward for his skillful efforts. Game is also abundant. The deer, the bear—a grizzly if wanted—and smaller game swarm in the woodlands, and the man who cannot satisfy himself with an outing in California, must be hard indeed to please.

Long limit low rate tickets are sold to California via any of the Southern Pacific Company's three routes: Shasta, Ogden or Sunset, and may be purchased to read in one direction via any of these returning the same or either of the others. For information regarding rates and various routes to California call upon or address any agent of the Southern Pacific Company, or W. G. Neimeyer, Gen'l. Western Agent, 238 Clark St., Chicago, Ill.

Geo. B. Secord, the well known contractor of Towanda, N. Y., says: "I have used Chamberlain's Cough Remedy in my family for a long time and have found it superior to any other." For sale by C. W. Milhous.

## A RIGHT ROYAL ROBE.

Made of Rare Feathers For the Ruler of the Sandwich Islands.

A million dollars seems a pretty round sum to pay for a cloak, and probably even Worth never dreamed of asking so fabulous a price for the most elaborate of his garments. And yet in the National museum at Washington is a cloak the cost of which cannot be reckoned at less than this vast amount, and ladies may be pleased to learn that it was not a woman, but a man, who was guilty of such a piece of extravagance.

Long years ago, when the Hawaiian Islands, small as they are, supported not one but several flourishing kingdoms, the kings, chiefs and nobles, whenever they appeared in public on state occasions, wore, instead of the purple and ermine of more civilized potentates, capes and cloaks of brilliant feathers. The ladies of the court were forced to content themselves with feather boas, as we should call them, known as leis. These capes and cloaks were made from the yellow, red and black feathers of a few species of small birds peculiar to the Sandwich Islands and called, from their habits, honey suckers. Fashion ruled even in those days, and as the yellow feathers were scarcer than the red yellow was the fashionable color, and the more powerful the chief the more yellow was his robe of state. These yellow feathers were found only on two or three species of birds, the finest coming from a bird called in the native language mamo and known as Drepanis pacifica by ornithologists.

These birds, with their striking black and yellow plumage, were as dear to the hearts of the Hawaiian monarchs as they might be today to the hearts of patriotic Princeton students and were sought for far and near throughout the islands. The populace paid poll taxes in golden feathers instead of golden dollars, and as each bird furnished but a few feathers the taxes may be considered as having been high. Some estimate of the value of the feathers may be formed from the prices paid in later times, when a piece of nankeen cloth valued at \$1.50 was the equivalent of five feathers; but, after all, the great element in the cost of these cloaks was time and labor, since the making of a single cloak required from 60 to 100 years.

As the feathers obtained for taxes were very far from supplying the demand the chiefs were accustomed to employ a regular staff of bird catchers, much as a medieval baron had his staff of falconers. These skilled foresters prepared a sort of bird lime from the gum of the fragrant olapa, mixed with the juice of the breadfruit tree, and with it smeared the branches of the flowering trees frequented by the honey suckers.

—Frederic A. Lucas in St. Nicholas.

## "La Typewritense."

It is in commerce that L'Anglicanisme naturally wins its greatest victories. In his Montreal office M. Jean Baptiste employs a secretarial privy—not particularly, like his Persian cousin—and, to make matters worse, this official must nowadays be a typewriter (or typewritense, as the case may be.) who increases the democratization of his native tongue with his "lottes typewrites."

Of course, the French-Canadian merchant has to count his money in dollars and cents like his neighbors, and cent or centime long ago displaced sou. The obvious Anglicism chelin has gone out of fashion with the English shilling, and is only used (to represent 20 cents) by the old market women and their contemporaries; and piastre is not yet translated into "dollar," but escompte has already become "discount," and difference has become "balance," like balance, is a French word with quite a different meaning. —Contemporary Review.

## A Judge of Dinners.

Professor Wilson writes to a friend that he is "confident that the people will come back to us as passionately as they seem to have left us." Which shows that Mr. Wilson is a much better judge of dinners than of common sense. —New York Press.

## A Paradoxical Position.

From all statements made it appears that Secretary Carlisle wants to retire the legal tender currency and also use it as a guarantee fund for the banks. This seems to be paradoxical, or doing with one hand and undoing with the other.

## ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

Unless the urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, get your urine aside for twenty-four hours a sediment or settling indicates kidney or bladder trouble. The mild and extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three cent stamp to cover cost of postage on the bottle. Mention the B. B. Kilmer and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its painsiveness of this offer.

## Chronic Dyspepsia Cured.

After suffering for nearly thirty years from dyspepsia, Mrs. E. E. Dugdale, wife of a prominent business man of New York, writes: "For 25 years, I was constant sufferer from dyspepsia and a weak stomach. The lightest food produced distress, causing severe pain and the formation of gas. No matter how careful of my diet, I suffered agonizing pain after eating, as treated by many physicians and tried numerous remedies without permanent help. About 10 years ago I began taking Dr. Miles' Nervine and Liver Pills and Nerve. Within a week I commenced improving, and persisting in the treatment I was soon able to eat what I liked, with no evil effects upon my system. I am now a healthy woman, and feel as well as I ever did." Dr. Miles' Nervine Restores Health.

"DR. MILES' NERVINE is a positive cure. It is a quick-acting, reliable, and safe remedy for all cases of dyspepsia, indigestion, and all other ailments of the stomach and bowels. It is sold by all druggists and by mail. A. H. BENTLEY, New York, N.Y."

## HAS LEFT KEY WEST

Maine Court of Inquiry's Report on Its Way to Washington.

## PRESIDENT'S LINE OF ACTION

Document Will Be Made Public When Sent to Congress—Senator Thurston Will Speak on Cuba—Speaker Reed and Mr. Hitt Confer With President McKinley.

Washington, March 22.—The report of the naval court which has been investigating the cause of the destruction of the battleship Maine in Havana harbor on the night of Feb. 15 was turned over to Admiral Sigsbee last night and was dispatched from Key West early this morning. It should arrive here Thursday morning. It is thought that the president will not require more than two days for its consideration and the preparation of a message, which would bring us to Saturday.

## LINE OF ACTION

To Be Pursued When the Court of Inquiry's Report Is Received.

Washington, March 22.—The procedure in connection with the submission of the report of the Maine court of inquiry by the president to congress is now clearly outlined, and a cabinet officer explains the general line of action at present intended to be pursued upon receipt of the report, which is expected to reach Washington next Thursday. A copy of it will be laid before the Spanish government very early, and as soon as can be consistently done the report will be sent to congress and made public at the same time.

The report to congress will be accompanied by a message from the president, stating that after receiving the report the conclusions were laid before the Spanish government and appropriate action from that quarter asked. It is stated positively that no part of the report, and no intimation of the findings, has reached the executive authorities in Washington as yet. At the same time it is a noticeable fact that the current of official opinion is beginning to follow that of the unofficial opinion expressed so positively and persistently at Havana and Key West, that the cause of the explosion was external to the battleship. Officials high in the administration have stated that while they were wholly without exact information as to the findings of the court of inquiry, they found themselves sharing in the apparently intangible conviction that the cause of the explosion was not accidental.

## Reed and Hitt Call on the President.

Intense interest in the coming report was manifested at the white house yesterday and at the state, war and navy departments. The president received a number of congressional leaders, among them being Speaker Reed and Chairman Hitt of the house committee on foreign affairs. The visit of Mr. Reed naturally attracted much attention. It was inferred the purpose of his visit was to confer upon the Cuban situation and its future before congress, though neither he nor Mr. Hitt was communicative. Secretary Long also had an extended conference with the president.

The army and navy preparations continue without interruption. No further purchases of warships have been concluded, and the negotiations are not assuming a promising aspect, except in showing that the United States can command the market against Spain.

The ordnance office of the war department presented a very busy scene when bids were opened for furnishing 1,000 cast iron projectiles for sea coast cannon with which to man the fortifications. The advertisement called for 187 10-inch solid shot, 910 13-inch mortar shells weighing 800 pounds each and 500 12-inch mortar shells weighing

1,000 pounds each. There were an unusually large number of firms who bid for the contract and the prices at which they proposed to furnish the projectiles showed a wide range.

The Battleship Texas started Northward from Key West today, thus settling the question as to the formation of a second squadron at, or near Hampton roads. It is expected the Massachusetts will follow in a few days but the final orders for that move have not been made.

TORTUGAS HARBOR. Important Conference In Regard to Its Fortification.

Washington, March 22.—An important conference was held in the office of the secretary of war in regard to the fortification of Tortugas harbor. There were present Secretary Alger, Assistant Secretary Roosevelt of the navy department, General Miles, General Wilson,

chief of engineers, and Colonel Henry M. Robert, corps of engineers. The last named officer was stationed on the Florida district for many years in charge of river and harbor works and fortifications and his advice therefore is valuable as to the details involved in the establishment of a coaling station at Tortugas and the construction of fortifications and harbor defenses.

The engineer officers who have been investigating the matter estimate that it will cost about \$1,000,000 and take nearly two years to put the island in a proper state of defense from sea attack. No definite action was taken.

## A PENSION MEASURE

House Committee Reports Favorably on the Overstreet Bill.

## NOT MEDDLING IN HAWAII

Herman Keok, an Alleged Smuggler at Cincinnati, Gets a Rehearing in the Supreme Court—House and Senate Proceedings—Blanche K. Bruce's Funeral—Pensions.

Washington, March 22.—The house committee on invalid pensions have favorably reported the Overstreet bill prohibiting the withholding, suspension, modification or cancellation of any pension except for fraud, clerical error, mistake of fact or recovery from disability.

The bill requires sworn charges in each case, the reduction of all evidence to written questions and answers and prevents adverse action until the determination of such an investigation to be held near the claimant's home, at which the claimant and attorney are to appear.

## ENGLAND PROTESTS.

No Grounds for the Statement Connecting Her With Hawaii.

Washington, March 22.—Much surprise has been created in England by the passage in the recent report of the senate committee on foreign relations respecting the attitude of Great Britain toward Hawaii and Sir Julian Pauncefote, under instructions from his government, has informed the department of state that the committee of the senate are under an entire misapprehension, and that there is no ground whatever for the allegations contained in the statement.

The passage referred to states that "If Great Britain is not industriously and openly engaged in fomenting the movement for the destruction of the monarchy and the restoration of the republic and the princess, her agents and her powers upon the islands, on the happening of any pretext for the protection of the lives and property of British subjects in Hawaii."

## CUBAN INDEPENDENCE.

Resolution Recognizing the Same Introduced in the House.

Washington, March 22.—Representative King of Utah has introduced the following joint resolution, recognizing the independence of Cuba: Resolved, By the senate and house of representatives, that the republic of Cuba having established and maintained an independent government capable of performing those duties, foreign and domestic, which appertain to independent governments, and it appearing that there is no longer any reasonable prospect of the successful prosecution of the war by Spain against said state, it is expedient and proper, and in conformity with the laws of nations and the practice of this government in like cases, that the independent political existence of said state be acknowledged by the government of the United States.

## ALLEGED SMUGGLER.

Herman Keok of Cincinnati to Get a Rehearing Before Supreme Court.

Washington, March 22.—The United States Supreme Court has restored to the docket the case of Herman Keok, the Cincinnati merchant who is under sentence of imprisonment for attempting to smuggle diamonds into the United States through the Philadelphia port. The court recently affirmed the decision of the court below by a divided court before Justice McKenna went on the bench. The case will now be considered by the full bench on printed briefs.

## Senate and House.

Washington, March 22.—The senate was in session yesterday an hour and five minutes. After disposing of some routine business Mr. Bacon introduced an amendment to the resolution for the annexation of Hawaii. The amendment provides that the resolution shall only become effective when it shall have been submitted to the qualified voters of Hawaii and passed upon favorably by them. The house unanimously passed the bill for the relief of the survivors of the Maine disaster. The bill reimburses the survivors for losses sustained and pays the heirs of the victims a sum equal to a year's pay.

Funeral of Blanche K. Bruce. The funeral of Blanche K. Bruce, ex-slave, ex-senator and twice register of the treasury, was held here yesterday. The Metropolitan A. M. E. church was crowded with the representative colored population of the city. The ushers were from the officers of the colored high school cadet corps. Among the floral tributes was a handsome wreath from the white house with the card of President McKinley.

## Weather.

Indiana and Ohio—Rain; decidedly colder tonight.

## PINGREE'S TAX BILL.

Measure Ready For the Legislature, Which Convened Today.

Lansing, Mich., March 22.—It is evident that Senator McMillan's reply to Governor Pingree's letter on the subject of taxation of corporations will be the keynote of the opposition to the Pingree taxation bill in the special session of the legislature which convened today. Appointment of a commission, which shall report investigation of the subject at the regular session of the legislature next winter will be urged as a compromise measure. The Pingree bill is completed. It provides for appointment by the governor of a state board of five assessors, the auditor general to be president thereof, who shall assess all railroad, telegraph, express and telephone companies taxes, the assessments to be at the average rate of taxes on other properties for the previous year. The corporations named are required to file sworn statements of all their property, real and personal, and gross receipts from all sources and other facts as the board may require. The companies, franchises are also to be assessed at their true cash values.

## WORKING LIKE A CHARM.

American Customs Regulations at Skagway and Dyea.

Vancouver, B. C., March 22.—P. Carter, who has just returned to Vancouver from the north, says that the American customs regulations at Skagway and Dyea are working like a charm. Collector Ivey has returned to Alaska from Washington and is carrying out the treasury instructions of Feb. 22. Mr. Carter says that the Skagway trail is breaking up owing to the early season and mild weather. The Dyea trail is no better. Klondikers are stuck at Sheep Camp. The electric tramway is not yet working. He thinks the Stikine river route will be the best when the river opens, which he expects will be about April 25. He advises Klondikers to stay in the cities of Seattle and Vancouver, to be on the spot when the river boats are able to proceed. Wrangell at present has a population of 5,000.

So far as known two men are dead from injuries received in jumping from windows; another is dying and 20 are missing, while a search of the ruins may disclose the fact that many transient lodgers lost their lives also. Goshen, Ind., March 22.—The trial of County Commissioners Walley and Kinison, for receiving bribes, came to an abrupt end. Ex-Treasurer William E. Holdeman, who is now confined in jail awaiting sentence for embezzlement, and Attorney E. A. Dansman refused to testify, the latter on the ground that the facts in his possession were given to him while acting as an attorney and were privileged.

Judge Wilson sent Holdeman to jail for contempt, but at the request of the prosecution Attorney Dansman was allowed to go free. As the prosecution was based on evidence of Holdeman and Dansman the jury returned a verdict of acquittal.

## OMAHA EXPOSITION.

Governor Mount Expresses a Desire to See Indiana Well Represented.

Indianapolis, March 22.—Governor Mount expresses a desire that Indiana be fittingly represented at the Omaha exposition this year. While no money is available for making a state exhibit, he believes it is possible for commercial bodies, companies and individuals to take hold of the subject and arrange for a creditable display from the state. His information is that every transmississippi state will make an exhibit, and that many of the states this side of the river will be well represented. It is of special importance, he thinks, that the industries in this state should be represented.

This road has been offered to the commissioner for \$1,400, but the board thinks they will get it, by waiting, as cheaply as the Yorktown pike was purchased.

## Her Identification.

"There," she said as she finally got the check properly indorsed and handed it to the paying teller, "I'd like to have the money, please."

The young man scanned it carefully and then looked at her.

"Is there anything wrong with it?" she inquired apprehensively.

"No, I'm sure it's all right. Only we have our rules here, and before we can let you have the money you will have to be identified."

"But the friends I am visiting took a trip out into the country with my mother this morning."

"Then you will have to wait till tomorrow."

"But I need the money to do some shopping with this afternoon."

"I'm very sorry."

"It's absolutely necessary to be identified?" she asked plaintively.

"Absolutely."

"Well, I suppose I can manage it. Will the bank be open for an hour?"

"Yes."

"Then I'll hurry home and put on my evening gown. It's a great deal of trouble, but it's the only way, and I'm glad I happened to think of it."

## TWO YEARS SINCE.

With today's issue, the present proprietors of the REPUBLICAN begin their third year's business in Seymour. During the two years which have closed the publishers have had in view the making of the best local newspaper in Seymour. That these efforts have been appreciated is attested by the fact that the circulation of the Daily Republican has grown from 500 copies printed two years ago to 625 copies now printed daily. What has been done during the two years is the best promise as to what will be done in the future, and the strongest assurance that the REPUBLICAN will be kept at the front as a newspaper.

Our job department has shown a very gratifying increase in business. With new job press and new type we have been able to turn out the very best quality of work and have been content to let our printing stand on its merits when compared with that of any office anywhere. The result has been that many who appreciate good printing have become regular patrons of the REPUBLICAN.

The publishers appreciate the courtesies shown them both personally and as representatives of the paper, and the almost uniformly kind and appreciative words which have been spoken of the paper. We shall endeavor to merit this approval in the future even more than in the past.

## QUEER OLD NATURE.

"Why is it," asked a wondering child (Sweet, simple little thing), "That the foolish tree puts on its clothes When the sun shines in the spring, And when the children come And the winds of winter blow, Why does it stand out there, all bare, In the frost and sleet and snow?"

"Wise nature has arranged it thus," I told the little one, "The rustling leaves can only live Beneath a smiling sun; The tree that in the summer time Makes shady bowers for you Must have its rest, therefore it stands Asleep the winter through."

She sat in silence for awhile And gazed far into space, And lines of thought and trouble came To mar her childish face, And so, at last, she turned and said: "I'm sorry for the tree, And glad that nature wasn't left To fix things up for me!"

## A SCENE ON THE SOO.

The King of France Took Possession of the Land Two Hundred Years Ago. In St. Nicholas there is an article on "The Great Lakes" by W. S. Harwood. Mr. Harwood says:

While waiting for my steamer to be carried through canal locks of the Soo, I stood one summer day near a hill on which now stands Fort Brady, overlooking the rapids of the Soo as they flow from Lake Superior down into the St. Mary's river and so on to join at last the waters of Huron. On the top of this hill, as nearly as I could decide from the topography of the country, was witnessed two centuries and a quarter ago one of the most remarkable, one of the most significant, scenes in the history of the new world. It has been brilliantly described, and I may but mention it.

On June 14, 1671, a strange body of men was assembled on this hill. It was composed of four classes—the official representatives of the king of France, the Catholic missionaries, the voyageurs and the Indians. Weeks before word had been sent out to the chiefs of 14 of the different tribes of Indians in the region to meet at the Soo on the date mentioned. An immense cross of wood was made and carried to the top of the hill overlooking the swift flowing rapids. A stout timber with an engraved plate on it was set up near the deep hole in the ground which was to hold the foot of the cross.

When all had assembled, St. Lapsso, the representative of the king, lifted in one hand a clod of earth and in the name of his most Christian majesty the king of France took possession of the land, embracing in his assumption "all the region from the north to the south sea and extending to the ocean on the west."

The cross was then raised before the motley throng—the representatives of the government in their most gorgeous suits, the priests in their rich vestments, the voyageurs in their hunting garb of skins, the Indians in their most fantastic feathers and paint. As the cross assumed position the priests intoned a stately chant of the seventeenth century. Then the French exclaimed "Vive le roi!" while, as one historian puts it, "the Indians howled in concert."

The plate upon the smaller timber bore an engraved inscription denoting the king's possession of the land.

## A New Road Found.

"Oh, John, dear, isn't your Uncle George dreadful?"

"What's up now?"

"Why, I called at his office today, and he was talking to one of his clerks up stairs."

"Nothing unusual in that."

"And, John, he told the poor man to go to—you know where—through the speaking tube."—Pick Me Up.

## HELPLESSLY DESTITUTE.

Two Hundred and Five Thousands Re-concentrated Starving.

New York, March 22.—Dr. Louis Klopsch, now in Cuba, in charge of the American relief work, cables from Havana, under date of March 21 to the Christian Herald:

"The situation is simply this: Two hundred and five thousand reconcentrados in over 400 hundred accessible towns are helplessly destitute. Unless we can get regularly, without a break, 300 tons of cornmeal and fifty tons of lard or bacon every week, we cannot effectively relieve the suffering. Sporadic and unsystematic efforts defeat all good intentions. Canned goods are useless and condensed milk should be substituted. Fifteen thousand dollars weekly will feed every starving man, woman and child in Cuba. Small, irregular shipments are only tantalizing."

## SEPARATED SINCE 1861.

Mrs. Flora Herrick Finds Her Father In a Soldier's Home.

Milwaukee, March 22.—Mrs. Flora Herrick of Chicago and her father, William Gessie, an inmate of the National Soldiers' home in this city, have been brought together after having been separated since 1861 when the war broke out. The meeting was brought about through the settlement of a will in which an estate valued at \$100,000 is involved. Robert Gessie died about six months ago at Newport, Ind., leaving a large estate. The story of the litigation which will probably follow has many extraordinary features. He was an eccentric character and drew up his own will to suit his own peculiar fancies.

Yontsey was found guilty on an indictment which charged violations of the United States banking laws.

## DUCTION ALONG THE LINE.

Success that we have met with by the price of our cabinet photos is one dollar per dozen, has caused us to continue for thirty or forty longer, making cabinets on paper equal in style, finish and quality to those made by other photographers at a much higher price.

We have also determined to make the same or dead finish cabinet photos (some called carbonettes) at \$2.00 per dozen and guaranteed them equal to any made in Seymour at \$1.00 per dozen.

We are not deceived by the cry of cheap work, for we all use the kind of printout paper, and in the same kind of gold and platinum bath. Wash our prints in the same water and card and in the same way. We call attention to our new velvet cabinets at \$1.50 per dozen that by are preferred to the higher priced ones. We invite you to call and see our work and then if you do not pay higher prices for no better it is your privilege to do so.

## GOOD CITIZENS' MEETING.

Steps Toward Organization Taken Here Last Night.

There was a public meeting at the Presbyterian church last night to take steps towards the organization of a good citizens' league. There were about fifty men present and several women. As prearranged Rev. J. T. Charlton presided and Frank H. Hadley acted as secretary. The constitution, which is the same as adopted by similar leagues throughout the state, was read by the chairman.

The needs of such an organization were presented by Rev. J. W. Cleverger, and the benefits to be derived from it were pointed out by Rev. J. M. Barker. Both gentlemen spoke conservatively and urged the necessity of the people generally upholding the officials in the enforcement of law and showing a more decided interest in municipal affairs than they usually do. John L. Kessler followed with some general remarks showing the utility to be derived from a well organized and conservatively managed league.

After a second reading of the constitution, twenty-six came forward and signed the same which insures the organization of a local league.

A committee, consisting of John L. Kessler, Frank H. Hadley and Senator Louis Schneek was appointed to report permanent officers at the meeting at the Methodist church next Monday evening.

Similar leagues have been organized in several cities in the state and where they have been conservatively managed on the lines indicated by the chairman and other speakers last night, have been the means of doing much good in the enforcement of law.
